

GOLD

“

Sargent & Krahn offers a well-rounded and technically robust IP practice, covering everything from prosecution and litigation to licensing, regulatory and emerging technology matters. Active across all technical fields, the firm is particularly strong in life sciences, where it seamlessly integrates patent advice with regulatory issues.

“

IAM PATENT 1000:

Leads the patents group and brings decades of experience in enforcement, licensing and technology transfer. He is especially noted for his work at the intersection of patents and pharmaceutical and agrochemical regulation, advising clients on both prosecution and high-stakes disputes, while also playing a key role in managing invention licensing strategies.

”

Cristián Barros
